AT ALHAMBRA.

THREE HUNDRED AND FIFTY PEOPLE ENTERTAINED.

A Trainload of Excursionists from This City Visit Lovely Alhambra and Receive a Most Royal Welcome.

A Southern Pacific special train consisting of five coaches, chartered for the occasion, left the Commercial-street depot yesterday morning at 10 o'clock, loaded down with 350 excursionists, bound for Alhambra to assist the people in celebrating Washington's birthday and to accept the hospitality which was extended to all by the residents generally of this beautiful suburb of Los Angeles.

The weather, with the exception of a rather cold wind, was all that could be wished, although the committee of arrangements feared a rainy day. On the arrival of the train at the Alhambra depot the excursionists were warmly welcomed by the Reception Committee, with the Rev. Charles Shelling at their head, ably assisted by Dr. and Mrs. D. T. Kellogg, Mr. and Mrs. George Stinson, Misses S. B. Kingsley, F. Edward Gray, Bassonett, W. H. Whittemore, F. E. Williams, James Wayne, C. T. Adams, L. C. Anderson, Leslie Williams, and the Messrs. Jones, Blackburn, A. C. Weeks, A. E. Pomeroy, Will Phillips and F. Q. Story. These, with the Carriage Committee, Messrs. James Wayne, C. T. Adams and S. L. Page, showed their guests to the carriages in waiting, provided to seat 300 people, but they were taxed to their utmost, a few being obliged to await the next trip.

With enlivening strains from the Los Angeles City Band, that furnished satisfactory music for the occasion, the cavalcade moved through every street in the place, the participants drinking in the lovely prospect that surrounded them.

As the procession passed the new hotel a bevy of ladies presented an enlivening scene, in a group, with handskerchiefs in one hand and a miniature flag of their country in the other, both emblems fluttering in the stiff wind, while the countenances of the feminine enthusiasts gave indications of genuine joy and welcome.

Every street in the place was traversed, every point of interest eagerly scanned by the participants, while exclamations of wonder were as thick and emphatic as those heard at an exhibition of sky-rockets, and, to show the striking contrast between the American style and the Mexican, a turn was taken through the old Spanish mission of San Gabriel.

A two hours' drive, and the hungry excursionists reined up to the new hotel, not quite completed, where their delighted eyes beheld such a sight as no country but Southern California can supply. The dining-hall was a perfect bower of beautiful palms, ferns, cypress, ivy and flowers, so delicately blended, so artistically wrought into entrancing figures, that the impression was immediately prevalent that this was Eden. With a bountiful repast tastefully arranged and beautified with flowers, that it seemed almost sacrilege to mar its effect—although hungry mortals fresh from a ride of four miles were sadly tempted.

It was no common, every-day real-estate lunch, but a banquet of every known cake, home-made doughnuts, chicken ham, pyramids of sandwiches—over 1000—flaked by delicacies such as ladies alone can supply; and the coffee. Of ye saints! was there ever such a cup of the beverage set before mortal man? Mrs. A. C. Weeks and Mrs. Bassonett gave their untiring energies to the preparation of this cup that certainly cheered, and most certainly did not inebriate. The tables were presided over by Alhambra's fairest, Mrs. F. Edward Gray, being at the head, with Mrs. Ida Halstead, Hawley, W. H. Whittemore, S. B. Kingsley, O. H. Stone, Leslie Williams, Miss Alice Adams and others more than furthering her efforts. When the feasting was well under way Rev. Charles Shelling read a letter from Hon. J. de Barth Shorby, the intended orator of the day, in which he expressed his regret at inability to fulfill the duty which he could so happily have performed. Mr. Shorby, with the late B. D. Wilson, was the founder of Alhambra, has ever since been identified with its growth and progress, and it was a regret to all not to have heard the words which always come from his heart when he speaks of his protégé, Mr. Shelling followed the reading of the letter with a speech of welcome and patriotic expressions, which was received with an outburst of enthusiasm that exhibited the patriotism of his hearers.

Mr. Jones read a poem, written for the occasion by Mrs. E. L. Mayberry—a pretty and appropriate composition. Lunch over the visitors rambled throughout the town, admiring the lovely residences, orange groves and bounteous display of tropical plants and flowers that is under cultivation in every yard and around every house of the artistic and intelligent residents of this veritable paradise.

It was with regret that the pleasure-seekers wended their way to the depot, as 4 o'clock came, every mouth filled with praise for the reception that had been tendered them, and at a loss to express themselves in admiration of this lively town. The great surprise came when, all seated in the train, a committee passed through, making a present of a small sack of oranges to every man, woman and child. This seemed to be the last drop that caused their cup of happiness to run over; and as the train moved off every window was occupied, and the voices of the excursionists were lifted in a round of cheers for their hosts, the people replying with three times three and a tiger.

Messrs. H. W. Stanton, W. H. Whittemore and F. Edward Gray, as executive committee, are to be congratulated in so successfully carrying out the arrangements.

The Fresno Boom. Among all the outside agencies here, the Fresno agency seems to be accomplishing the most. It is hard to strike the rooms when there is not a crowd inside, and Hon. Firman Church, the manager, is sending a large number of home-seekers to Fresno county.

COL. WOODFORD.

Another Temperance Lecture at Port-street Church.

Col. Woodford lectured again at the Port-street M. E. Church, last night.

The first part of Col. Woodford's address was full of his rich experience since he had signed the pledge and begun to work to get "other boys" to do it. He spoke of hand-shake after hand-shake he had given here in Los Angeles to those he had met upon the street, with whom he had worked in years past. He spoke effectively of meeting the daughter of a lady who had prayed, way back in Crusade days, that George Woodford's evil influence might be removed from the city where he lived. Mr. Mallock, who had worked with him in the old days, was present, and called to the platform. He arose and began impetuously:

"That's one of George's old tricks. It is indeed a surprise to me to be called out on this occasion. Brother Woodford and I met tonight more than 2000 miles away from where we first worked shoulder to shoulder. I was, before signing the pledge, one of those strong-minded men. I didn't want to be mixed up with temperance fanatics; but this is how I happened to sign the temperance pledge: I had a minister friend and had promised him to do anything he might ask, within my power to do. He set a trap for me, got my wife to invite me to a temperance meeting and then asked me to sign the pledge for 30 days. Not only for 30 days, but for all my days I will sign it. It is impossible for me to tell you of the rich experience that has come to me and my home by the keeping of that pledge." Great applause followed his enthusiastic little talk.

After offering the pledge, Mr. Woodford lectured with an earnestness that held his audience throughout.

"It takes many years to learn wisdom. I believe that the experience of all men who have had anything to do with saloon-keepers is that they are the most cold-blooded men with whom they have ever had anything to do. Alcohol, though a slow poison, often does its work quickly. Some men, in two months of hard drinking, make wrecks of themselves.

"Young man, you think that only a drink in the morning is not going to hurt you, but if that becomes necessary you are on a starting line toward your destruction. A man in the habit of drinking is sure to get on a spree just at the time, of all times, that he should have kept sober. If you take a drink for an appetizer, it is an appetite that will be your master.

"There is no safety except in total abstinence." Anecdote after anecdote followed, showing how he had begun to lecture upon temperance in the towns near his own home to help counteract its early influence. Ah! "wine is indeed a mocker, and strong drink is raging."

CRADLE SONGS.

Unique Entertainment for the Free Kindergarten.

The interesting entertainment, "Cradle Songs of Many Nations," for the benefit of the Free Kindergarten, will be given in Turnverein Hall, on Friday. Some of the leading ladies of the city are engaged in the work, as may be seen by the following list of Lady Patronesses: Mesdames I. W. Hellman, Jotham Bixby, R. M. Widney, Earl B. Miller, S. C. Hubbell, E. F. Spence, Gov. Stoneman, John Willis, H. T. Lee, O. W. Childs, Van Nuy, C. M. Severance, Los Angeles; J. F. Crank, John Newton, San Gabriel; Dr. Channing, George B. Senter, J. C. Carr, Pasadena.

The songs will be sung in character tableaux, and the costumes will be very elegant and very accurate. The entertainment is a novel one, and will be well worth attending. Following is the programme:

WOMAN'S SUFFRAGE CLUB.

A Pointed Address Delivered by Dr. J. L. York.

According to announcement, the Woman's Suffrage Club met yesterday afternoon in the parlors of the Hollenbeck block, with a good attendance.

Dr. J. L. York, the lecturer, who is drawing such large audiences at the Grand Opera House, Sunday evenings, was present by invitation and addressed the club. He spoke with much regret of the recent decision of the Supreme Court of Washington Territory, adverse to woman's suffrage. He had been on the ground, and said the women of Washington Territory were going to persevere until the obnoxious decision is reversed. Dr. York predicted that one of these days the Republic party will want the suffrage of women, and will reach out to them a helping hand, just as it did to the Negro.

Still at Work.

Rev. J. W. Brier, the venerable survivor of the Death Valley tragedy of 1849, continues his good work in Southern California. Despite his 73 years, his energy keeps pace with his marvelous physical preservation. On Saturday and Sunday he lectured to full and appreciative houses in San Bernardino. He is much pleased with the people there, and deems the scenery as fine as any upon the continent.

California and Mexican Land Co.

At a meeting held by the California and Mexican Land Company, at their office, room 4, Mascarell block, on last Saturday afternoon, the following gentlemen were elected for the ensuing year: R. F. Del Valle, president; C.

H. Howland, vice-president; T. W. Temple, secretary, and F. G. Handie, treasurer. After a careful study and thorough investigation into business matters on this coast and in Mexico, this company has been established for the purpose of facilitating matters and showing its great advantages for the stockman, farmer and mining man. The company can render great assistance to parties desiring to enter into business enterprises in Mexico, as to land, mining and commercial matters.

Colony Meeting. Another meeting of stockholders in the Cooperative Colony will be held this evening in Board of Trade Hall, at 7 o'clock. The colony is no longer a temporary organization, but a corporate body, and tonight a final adoption of the bylaws will be reached. Every stockholder is expected to be present. Others are also invited.

Temporary headquarters for the colony have been opened in rooms 56 and 57, Baker block.

Tulare's Agency.

The Tulare agency here, of which M. Ayers is manager, has received a lot of new and interesting articles, illustrative of Tulare's productive abilities. A case showing the varieties of rich soil in the "75 country," 1-year-old peach trees 20 feet high, etc., are among the attractions which arrived yesterday.

Popular Pico Heights.

The boom has now fairly set in at this lovely spot. The lots are being sold rapidly. They are the cheapest and best adjoining the South Side tract. Compare prices. Lots of the electric road pass them. Urmy, 114 West First street, Nadeau block.

Rapid Sales.

And the purchasers shall share the profits. That is why the Urmy tract is put on the market at so much lower prices than lots adjoining. Call and get particulars. H. N. Urmy, 114 West First street, Nadeau block.

Speculators and Citizens Generally Should investigate our lot in Lark tract; 10 acres at Pasadena; a beautiful quarter section near city; 4 lots, with new house, in East Los Angeles. Immigration Land Company, No. 25 Temple street.

The Electric Railway Homestead Association hereby gives notice that the distribution of the lots in this side tract will take place in room 8, Schumacher block, March 3, 1887, at 1 o'clock p.m.

The Benton, 712 Sutter st., San Francisco. First-class private family hotel. Location beautiful and convenient. Mrs. Truesdell.

An oculist or jeweler can procure desirable location at J. W. Davis's drug store, No. 19 South Spring street.

Every well-dressed man should wear Egleston's perfect-fitting shirt, collars, cuffs and neckwear.

Goods at factory prices at Egleston's. 50 North Spring street.

Jackson's Napa Soda is a fine appetizer.

COLD STORAGE FOR SAN DIEGO.

A Twenty-thousand-dollar Ice Machine Plant—Cheap Ice.
[San Diego News.]

The San office was favored by a call this afternoon from H. A. Perry, one of the enterprising manufacturing men of this city, and John C. Kitton, the latter representing A. F. Evans & Co., of San Francisco.

Mr. Kitton stated that he had completed arrangements with H. A. Perry and other solid gentlemen in this city for the erection of ice-manufacturing works of a capacity of five tons a day, the machinery to be in position and in operation about the 1st of May.

Attached to the ice works will be a cold-storage attachment for the preservation of fruits, meats, fish, game, etc. The building inclosing the machinery will be located adjoining Perry's planing mill, near the bay front, and the entire works completely will cost about \$20,000, but a capital of \$150,000 will soon be employed in handling the immense trade that will grow up in connection with the enterprise.

One very material way in which this enterprise will effect San Diego, is the immediate reduction of the price of ice one-half. A canvass among the citizens gives the strongest assurance of public support of the enterprise. The business is an entering wedge that may develop into very large proportions, as the cold-storage process permits of the preservation for an indefinite time of about every eatable that now perishes or becomes unfit for use in a few days. It will be similar in character to the cold storage at Riverside.

An S. P. Joke.
The Tucson Citizen says: "Under the new time schedule of the Southern Pacific Railroad, travelers coming from points north of Deming over the Atchison, Topeka and Santa Fe road are compelled to remain at Deming twenty-two hours. There is already a dense halo of profanity surrounding that station."

This is a counterpart of the little joke the S. P. played for years on passengers who traveled over the A. & P. via Mojave. The only way to get even with the new cinch is to let Deming alone and come all the way to Los Angeles over the A. T. & S. F.

Ahead of the Van.

Both the Los Angeles Herald and Times are now issued seven days in the week. The Los Angeles newspapers are certainly not wanting in enterprise. With all Southern California's "boom," the dailies of the Southern California metropolis are a long way ahead of the van.

CATARRH

CONSUMPTION,

ASTHMA and BRONCHITIS,

Treated specially and successfully by

W. N. DAVIS, M.D.,

454 N. SPRING STREET,

Los Angeles, : : : California.

MEDICAL INHALATION COMBINED WITH CONSTITUTIONAL REMEDIES.

My treatment of the diseases of the respiratory passages consists in the employment of Medical Inhalation, for its direct effect on the diseased organs; and at the same time, adopting such hygienic measures, and administering such medicines by the stomach as will most effectually purify the blood, give tone to the nervous system, and build up and strengthen the general constitution. In other words, I employ combined local and general treatment.

What is Medical Inhalation? Before giving briefly what Medical Inhalation is, I propose, in as few words as possible, to state what it is not.

Medical Inhalation is not a cure-all, a nostrum, or a panacea. It is not a specific remedy for any disease. It is not a quack medicine, advertised to cure any and all the ills that flesh is heir to, or intended to fill the pockets of the ignorant. It is not a talisman which possession insures health to its possessor without the intervention of either sense or judgment. Medical Inhalation is none of these things.

Medical Inhalation is simply and solely a method of taking medicines by inhaling or breathing them into the lungs, instead of swallowing them into the stomach. By inhalation, the proper medicines are applied directly to the seat of the disease, in the nose, throat or lungs; and it is clear to every reasoning person how peculiarly applicable inhalation is in the disorders of the organs named. If you have scalded or burned the surface of the body, or wounded any limb or member, you do not swallow the remedy intended to heal the disorganized tissue. On the contrary, you apply it directly to the seat of the wound or injury. Why, then, when suffering from catarrh of the nasal passages or throat, or afflicted with ulceration of the lungs, should you rely on medicines taken into the stomach?

Medical Inhalation not only applies the proper healing remedies to the seat of the disease, but it applies the remedy in the gaseous or vaporous form, in which form, as is well known, medicines act most powerfully. How much greater, for example, is the effect of a drachm of chloroform, when inhaled, or in many times the quantity when swallowed into the stomach. The same is true of chloroform of iodine, and of many other substances. Inhalation, therefore, is a most necessary and powerful remedy. It is a direct application of the healing medicine to the seat of the disease, and thence sent wandering through the system in search of a remedy. It is the way of the stomach, a local one; but by this method the proper remedy is applied directly to the diseased parts. It is a direct application of the healing medicine to the seat of the disease, and thence sent wandering through the system in search of a remedy. It is the way of the stomach, a local one; but by this method the proper remedy is applied directly to the diseased parts. It is a direct application of the healing medicine to the seat of the disease, and thence sent wandering through the system in search of a remedy. It is the way of the stomach, a local one; but by this method the proper remedy is applied directly to the diseased parts.

My experience and success in treating diseases of the nose, throat and lungs, demonstrate the value of medical inhalation. The scientific treatment of these diseases is that treatment which combines the local effects of inhalation with the constitutional effects of systemic remedies. Given in the usual way by the stomach, one or both methods are necessary for the cure of these diseases. To such an extent is this true that no patient should intrust his case to any physician who is not well prepared and thoroughly equipped with everything necessary for the administering of the proper remedies by the method of inhalation.

MEDICAL ADVOCATES OF INHALATION.

Physicians who were educated twenty years ago or more, and who have not kept up with the progress in the advance in medical science, have very little idea of the great importance of local treatment in the treatment of pulmonary diseases. To such an extent is this true that no patient should intrust his case to any physician who is not well prepared and thoroughly equipped with everything necessary for the administering of the proper remedies by the method of inhalation.

The numerous cures effected by Inhalation in cases seemingly past all help, and the uniform success attending its use, demonstrate the respiratory organs, renders it obligatory on every honest physician to at once apply himself to the study of this method.

Inhalation, or, if that is not possible, he is at least bound to decline to treat such cases.

Among the most eminent physicians of the age who are fully awakened to the value of medical inhalation in these diseases are the following: The celebrated Dr. Rudolph Virchow of Berlin; Dr. R. La Roche, of the Paris Academy of Medicine; Dr. Frederick Langhans, of Berlin; Drs. Klebs and Tommasi-Crudeli; Sir Archibald Dickson, of Edinburgh, Scotland; Dr. Eichler, Dr. Cameron, Dr. Gordon Buck, Dr. Albert Lebert, the celebrated Dr. Hughlings Jackson, the venerable Dr. Robert Dickinson, Prof. Thierfelder, Spencer Wells, Dr. Hilton Fagge, Dr. G. F. Wood, Dr. Fritsch and Hitzig, Dr. Fothergill, Dr. Richard Thompson, Dr. E. S. Carpenter, Dr. Anstie, Ball, Fuller, Lancereaux, Krauss, Hugueno, Heller, Orth, Corrigan, Fenwick and many others.

With scarcely a single exception every medical man of eminence recognizes the wonderful potency of this new method, and the coming generation of physicians are certain to be thoroughly educated therein. At present it is only a few physicians here and there who have made "Diseases of Respiration" a life study that are fitted in any way to employ the wonderful resources of Medical Inhalation in the cure of these diseases.

THE CURABILITY OF CONSUMPTION.

For five years the celebrated Dr. J. H. Bennett was pathologist to the Royal Infirmary of Edinburgh, and in his great work on "Consumption" he makes the following statement: "During this period I made upwards of 200 post-mortem examinations of persons dying from various diseases, and I was constantly meeting with cases in which I found cavities in the lungs from consumption, which had evidently healed up or cicatrized years before the death of the subject. Nature did not seem to have been successful in restoring the wasted lung-substance, but the cavities were dried up, and the process of the disease arrested, and the subject lived for years, with diminished lung power, it is true, but otherwise in good health."

YESTERDAY was Mardi Gras. Today is Ash Wednesday.

YESTERDAY was a pretty lively soldier day in Los Angeles.

THE TIMES presents its readers with a telegraphic budget "as is" a telegraphic budget.

As might have been expected, the theorists begin to tire of Topolobampo. It was inevitable.

THE Moffitt-Smith crookedness and alleged conspiracy at Sacramento grows in interest, as shown by a special to THE TIMES. The plot thickens, and the end is not yet. Serious charges against Clerk Smith are made, and, if true, he is seriously in need of a "character."

Vilas Vanquished.

It is a long lane that has no turning, and he who "camps on the trail" of the foe will "get there" some time. THE TIMES has frequently and pointedly called attention to the wretched administration of the postal affairs of this county by Postmaster-General Vilas; and, among other things, to the fact that the superb foothill country, which is filling up with wonderful rapidity, and already contains some thousands of people, has been left to worry along with three mails a week, carried by buckboard, while five railroad trains were passing those settlements daily. The constant protests have had their effect, at last, upon the pachydermatous hide of the Postmaster-General. Yesterday a telegram was received by Postmaster Green, of this city, announcing that the department has decided to give a daily mail to Sierra Madre, Monrovia and Duarte, commencing March 7th. The Government has taken measures to secure the transportation. It is probable that the mail will be carried as Pasadena's now is, over the Los Angeles and San Gabriel Valley Railroad, twice daily, with no mail on Sunday. That Southern California has at last received a concession from the halting Postoffice Department is most gratifying; and the lusty young towns of Sierra Madre, Monrovia and Duarte are to be congratulated on their good fortune. Now let Mr. Vilas do the decent thing by Los Angeles.

Let the State Control.

Below is the text of Mr. Granger's proposed constitutional amendment (introduced in the Assembly on the 15th inst., and referred to the Committee on Constitutional Amendments) "relating to the regulation and control by this State of the waters thereof for beneficial uses and ends." The amendment is to be known as section 3 of Article XIV:

Section 1. No superior right, nor exclusive privilege, claimed by any person, limiting the power of this State to provide just and equal laws in the use of the running waters and streams, or the navigable lakes of this State, shall ever be hereafter recognized; but the use of the said waters shall be subject to the regulation and control of the State. No person shall hereafter have or maintain an action at law or in equity before any court within this State, to enjoin, or restrain, or to recover damages for the diversion of water for irrigation, mining, mechanical or other beneficial purposes, from any non-navigable or navigable stream, or navigable lake, situated wholly or in part within this State; provided, such diversion shall have been made in conformity with legislative act. Every diversion of water from any running stream or navigable lake for a beneficial purpose, heretofore or hereafter made, shall be and forever remain subject to the regulation and control of the State, for distribution by law among the people thereof, in accordance with the equitable rule of its highest uses and its greatest benefits for all. The Legislature shall have power, and it is hereby made its duty, to enforce this amendment by all necessary legislation.

This goes straight to the proposition that we are coming to, namely, the control of the waters of the State by the whole people of the State—that is to say, by the Legislature—which is the only way in which the question can be settled satisfactorily and justly. In a country where water is scarce and precious—where it is of prime necessity to the farmer, and where its use is subject to selfish and unjust diversion by grasping corporations and aggressive individuals, the need and the right of the supreme power—the State—stepping in and taking control of the public streams in the interest of the whole people is so apparent that it can hardly be a subject of serious dispute. There is of course room for argument upon the particular manner of exercising the State's power in this regard. That will come when the fundamental

question is brought squarely before the Legislature and the people.

What the San Francisco Police Records Show About Smith—An Alleged Blackmailing Dispatch from the Clerk to a Lawyer—Disagreeable Details.

By Telegraph to The Times.

SAN FRANCISCO, Feb. 22.—[Special.] Edward J. Smith, the legislative clerk at Sacramento, who has gained notoriety through his statements that he had been frequently offered money to advance bills on the file, received today a very black eye from his wife, who lives in this city. According to her story she was married to Smith at Portland, Or., on February 23, 1883, and at that time he was employed as freight clerk in the railroad depot. "When Ed came to Portland," she said, "he took a room in my mother's house, and it was in that way I became acquainted with him. I married him when I was only 17 years of age. He began to abuse me soon after our marriage, and after giving up his job as a freight clerk, he was out of work for a long time. What little money he could get he spent in drink, and after a time he secured employment as purser of the steamer Gypsy. While working on the steamer he was arrested for embezzlement, growing out of a transaction with trades people. When we got married, my mother presented me with a set of furniture for our home, and she also gave me a piano. When I learned that Edward was in trouble, I sold the furniture and piano in order to raise money to save him from being sent to prison. I managed to settle with several of the trades people he swindled, and through the intervention of friends he secured his release on bonds. He then remained in hiding until a steamer was leaving for this city, and with the aid of the captain, who was a friend of mine, we smuggled him on board, although the police were watching for him, believing that he had stolen the piano. He remained in Portland several weeks after he left, and pretended that I did not know where he had gone. When I learned that he had reached the city in safety, I followed him with my baby. This was in the autumn of 1885. We took rooms in a house on Howard street, and he soon commenced to abuse me in a shameful manner. He would not work, but would come home drunk, and beat me black and blue. In fact, he beat me so cruelly that we were turned out of two houses by the landlady for making a disturbance. In addition to beating me, he would starve me and my babe, and I oftentimes was so hungry that I would have been willing to have put up with his abuse if he would only give me something to eat once in a while. I left him and returned to my mother's home in Oregon and remained there for a year. He then wrote to me and begged me to return to this city. He promised that he had secured lucrative employment. I borrowed money from my mother and returned to Ed, who welcomed me by renewing his abuse. He would go off on drunken sprees and return home in a terrible condition. I felt happy when he deserted me last December. Since that time he has not contributed a cent toward the support of my child, and I have been compelled to go to work in an oyster saloon. I have consulted an attorney, and will soon commence a suit for divorce on the ground of cruelty. I then intend returning to my mother's home in Portland."

RAILWAY MATTERS.

Western Managers Discussing Tariffs and the Interstate Law.

CHICAGO, Feb. 22.—[By the Associated Press.] The adjustment of such local and through rates as was reached by the general freight agents of the Western Traffic Association, was today settled by the managers of these roads, who met for this purpose.

This much effected, the remainder of the time was given over to the problem of how best to harmonize the interests of the several lines in different sections, so that Kansas City, St. Paul and Council Bluffs through rates should not clash. There being considerable difference of opinion on this point, its settlement was left for a general conference, to be held, when separate organizations will be arranged. Further discussion of the subject will be had tomorrow.

The general managers of the transcontinental railroads began today consideration of the interstate law and the necessary steps to be taken to meet its requirements. The session was opened by the reading of a paper prepared by N. Green Curtis, general manager of the Southern Pacific Railroad Company. The tenor of his article was that the law was susceptible of a liberal interpretation, and if so taken, would not seriously interfere with the operation of the Pacific roads. After the reading of the paper the meeting agreed that nothing could be done except regulating tariffs, as under a strict construction of the law, either through or local business would have to be sacrificed. It was decided that a committee be appointed to go before the Commission as soon as its members are named, and ask them to make such exceptions as will allow roads to carry both classes of traffic without loss. The meeting will continue in session two or three days.

THE SEASON'S STORMS.

Deep Snow in the Sierras—A Cyclone

SAN FRANCISCO, Feb. 22.—[By the Associated Press.] Reports received here this morning state that up to 7 a.m., 24 inches of snow had fallen at Blue Canyon, 18 inches at Emigrant Gap; 23 at Cisco; 20 at Summit; 13 at Trecker; 13 at Alta. Snow is also reported to have fallen at Tehachapi to a depth of one inch and at Keene 9 inches.

STILL THREATENING.

TRUCKEE, Feb. 22.—The storm has abated. The sun was shining today. The clouds in the mountains still preserve a threatening look. Old timers think the end is not yet. The wreck at Tamarack is cleared, and the road is clear. The snowshovelers are kept at work, providing against further disaster.

A CYCLONE AT OROVILLE.

OROVILLE, Feb. 22.—Last evening a cyclone swept across the country, a distance of six miles, in a narrow strip less than forty feet wide. Fences were blown down, cabins destroyed, and other damage was done. Fence boards, cabin roofs and brush were carried up into the air a distance of one foot.

WIND SPRINGING.

MERCED, Feb. 22.—The rainfall for the past twenty-four hours ending at 7 o'clock this morning was .13 of an inch, making 5.98 inches for the season.

FRESNO, Feb. 22.—The rainfall for the twenty-four hours to this morning is .16; for the season, 5.46.

PROHIBITION IN CANADA.

Sir John MacDonald's Probable Success.

HALIFAX, Feb. 22.—[By the Associated Press.] Sir Charles Tupper, who it is generally supposed, will succeed Sir John MacDonald as leader of the Liberal-Conservative party, has just made a very important declaration as to the prohibition question. He is opposed by a third party prohibition candidate, notwithstanding his life-long record as a temperance man. In his speech he pointed out that he had carried through Parliament a law giving absolute prohibition to the whole Northwest Territory, covering an area of 5,500 square miles. He had made total abstinence compulsory among the employees on government railways all over Canada, and today he regarded prohibition as the most vital matter before the people. He declared that if by going into opposition to the government he could secure legislation that would prevent the manufacture, importation, sale and use of intoxicating liquor, he would not hesitate about doing it.

MARDI GRAS.

Rex Pays His Annual Visit to His Subjects in New Orleans.

NEW ORLEANS, Feb. 22.—[By the Associated Press.] The procession this afternoon was a brilliant affair, embracing a series of humorous and burlesque tableaux. First came a detachment of mounted Amazons, in rich costumes; then followed 300 cars, each containing tableaux. The first division was illustrative of music and the various popular songs. Following Rex's procession, came the Independent Order of the Moon, in a travesty on the prominent features of the city. The parade was a national. There was the usual crowd on the streets. After Proteus's procession, there was a reception to the King and Queen, at the Exposition Palace. Thousands of their loyal subjects were present from all parts of the country.

A Board of Trade Organized.

SAN LUIS OBISPO, Feb. 22.—The organization of a board of trade for this city was completed last evening. The following officers were elected: President, E. W. Steele; treasurer, E. Jack; secretary, Rev. H. Cox; first vice-president, J. M. Turner; second vice-president, F. Adams. Executive and Finance Committees were also chosen.

A resolution was passed that the thanks of the Board of Trade be telegraphed to Senator A. P. Williams and Representative Markham for their efforts in procuring appropriation for a breakwater in the harbor of San Luis Obispo. Great attention was paid throughout the meeting, showing a determination to make the movement a success.

TOPOLOBAMPO.

Colonists Sick of Their Bargain Before Reaching the Colony.

NOGALES, Feb. 22.—A large party of people bound for the Topolobampo colony in Mexico, passed through this city this afternoon. There are a large number of women in the party, and they appeared more morose than happy. One lady with a family of small children said, "I don't believe I shall go." And there were a number of women in the car who nodded their heads in acquiescence.

Contesting a Pico Pico Grant.

FRESNO, Feb. 22.—Arrangements are being made to raise funds to employ counsel to attack the Little Laguna De Tache grant of 64,000 acres in this county. The grant is of the class known as Pico Pico, or Tamassiana, grants. Hon. P. D. Wigington has been retained. The grant has long been known to be spurious.

Arrived at the Bay.

SAN FRANCISCO, Feb. 22.—Lieut. William S. Smith, of the United States Navy, who will superintend the construction of the steel cruiser Charleston, arrived in this city today.

RAY FALK'S CASE.

Revelations in the Assembly Scandal.

Clerk Smith Continues His Story of the Mutilated File.

But Has Another Severe Attack of Bad Memory.

The Witness Charges Ray Falk with Attempting to Lead Him Into Crookedness, but Gets Badly Mixed in Other Matters—Falk's Testimony.

By Telegraph to The Times.

SACRAMENTO, Feb. 22.—[By the Associated Press.] The Assembly committee which has the alleged raising of bills on the file under investigation, met tonight, Frank D. Ryan, chief clerk of the Assembly, was placed in the witness chair, and stated the several processes which every bill undergoes before it is passed, including introduction, reference to committee, placing on file when returned from first, second and third readings, and the different records made of it by the different clerks at each stage. Ryan described how the slips of paper on which the amendments made in committee and in the house, are pasted on the bills at the places where amendments are made, and how the bill is engrossed and printed with the amendments before being finally acted upon. The engrossed copy is the one on which final action is indorsed and which is then sent to the other house. The bills are put on the file first in the order that they are reported back from the committee, and after second reading are placed and numbered on the file in the order in which they are reported back by the engrossing clerk, engrossed bills taking precedence over others in the file.

E. J. Smith was recalled. He testified that he was mistaken in stating that amendments to the bill had been detached from it afterwards returned in an envelope. The reason advanced by him for having thought so was that he had himself torn off amendments from the bill, because they were not adopted by the Assembly, when he was getting the bill ready for the printer. Smith was reminded by the committee that he had testified that he was offered money nearly every day to change bills on the file. He could not recollect instances, and admitted that this statement was incorrect.

RECOVERING HIS MEMORY.

Smith said that on January 26th the Committee on Corporations reported back, among other bills, Nos. 123 and 140, both relating to insurance, and both introduced by Taylor. Certain marks which he had on the memoranda of those bills caused him to recollect that Jake Shaen, engrossing clerk of the Assembly, had told him that Assemblarian Mann wanted one of those bills taken back and another put ahead on the file. He was mistaken in saying that he had been offered \$500 to drop bill No. 123 from the file. The bill concerning which the offer was made was No. 207, introduced by Mr. Taylor, an act relating to life and casualty insurance. Thomas Agnew had made the offer.

Smith said: "I was first approached on February 7th in relation to advancing the Colusa County Division Bill. I said I would do it, but when I made out the file I did not. I was approached by Ray Falk, an assistant minute clerk. A second time he spoke to me about it. He said we could make something out of it. I went to see Assemblarian Hart, who introduced the bill, to see if it had been done with his authority. Hart disclaimed all knowledge of the attempt to advance the bill, and said he would have nothing to do with it. I afterward found out who the parties were for whom Falk was acting. I do not know their names."

MONEY IN THE BILL.

Jacob Shaen questioned Smith concerning the bill appropriating \$5000 to pave the State Capitol grounds. It was then learned that Smith had given the bill to Assemblarian Taylor to introduce. It had been handed him by a party whose name he declined to give. He contradicted previous assertions that he had made by saying that Shaen never asked him to shove this bill on the file. It was also brought out that Smith had written and telegraphed to Mr. Goodman, of the Artificial Stone Paving Company, in connection with the bill. Shaen had told him, he said, that there was money in the bill, and that if anything came out of the bill, Smith would get a share. He testified that the bill was drawn up by Goodman and given to the party who handed it to Smith.

Ray Falk desired a hearing, and asked him if he had mentioned him in connection with advancing this bill. Smith thoughtfully replied that he did not think he had.

DESTRUCTIVE BILL HIGGINS.

Smith then informed Chairman Heath that not only had William Higgins wanted him to go to the Capitol and destroy the file that Falk is alleged to have mutilated, but that Falk himself last Wednesday asked him if he could not substitute another page for the mutilated one. Smith's testimony concerning the paving bill was then read. In it he implicated Falk. Falk repeated his question and Smith then said that Falk had tried to have him advance the bill. Falk had never offered him any money.

Mr. Ewing inquired whether Smith could change the place of any bill on the file without the other clerks knowing it. Smith answered that the system of checks at the desk is such that it could not be done. Smith said that Falk had complained that he was not letting the boys make a cent this year.

FALK TESTIFIES.

Ray Falk was sworn. He denied that he had ever asked Smith to change the mutilated file. He said: "I have been at seven or eight Legislatures and the breath of suspicion has not been cast on me before."

PASSED AWAY.

Sudden Death of Col. Wharton at Louisville, Ky.

LOUISVILLE (Ky.), Feb. 22.—[By the Associated Press.] Col. Wharton was found dead in his bed in his room at Alexander's Hotel, in this city, this morning at 9 o'clock. He had been ill during the evening, but when he retired he told his brother that he was feeling all right again. Deceased was colonel in the United States Army and a prominent Republican politician of this State. He was also widely known in the East. When Hon. Ben Bristow was appointed District Attorney for Kentucky by Johnson, Wharton was appointed his assistant. He succeeded Mr. Bristow when the latter was appointed Secretary of the Treasury by President Grant, but declined when Garfield became President.

DEATH OF A RAILROAD MAN.

ST. LOUIS, Feb. 22.—Word was received from South Pasadena, Cal., this morning that Charles W. Rogers, of this city, first vice-president of the St. Louis and San Francisco Railroad, died at the former place at 7 o'clock last evening from bronchitis. Rogers resigned from the general management of the road about a year ago on account of ill health and went last November to South Pasadena, where he hoped he would be benefited by the climate.

FOURTY-NINTH CONGRESS.

Second Session.

WASHINGTON, Feb. 22.—[By the Associated Press.] Senate.—The presiding officer presented a memorial from 15 Grand Army posts of Ohio, for the passage of the Dependent Pension Bill, over the President's veto. Like memorials were presented by several other Senators.

Mr. Riddleberger presented a petition against the ratification of the extradition treaty with Great Britain. He said he had a number of petitions from New York, Boston and other cities, but had hesitated about presenting them in open session. The presiding officer said that ordinarily such petitions were presented in executive committee.

Sherman Presents His Resignation

Presiding Officer of the Senate, to Take Effect Saturday.

Neither Ingalls or Hoar Likely to Succeed Him.

Ingalls' Chances to be Interstate Commissioner Improving—Hearings Confirmed at Minister to Mexico—J. Marion Brooks Making an Active Fight—Notes.

By Telegram to The Times.

WASHINGTON, Feb. 22.—[By the Associated Press.] Presiding Officer John Sherman, in the Senate today, presented a letter resigning his position, to take effect on Saturday, at 1 p.m. His term as Senator expires on the 4th of March. The communication was read and ordered placed on file. There is an impression abroad tonight that either Senator Hoar or Senator Ingalls will be selected to succeed Senator Sherman as President of the Senate. It is not known whether either is a candidate for the honor, and the impression has for a basis only informal preliminary talks of this afternoon among Senators. In addition to their well-known standing and long experience, both are expert parliamentarians. It is thought that the Senator selected will fill his position not merely during recess but during the next Congress.

J. MARION BROOKS'S CHANCES. J. Marion Brooks spent his first day in Washington to good advantage. He saw the Attorney-General and Senators Edmunds, Stanford and Williams. Senator Edmunds assured him that there were no specific charges against him, and that what had been filed were of a loose and unsatisfactory character. Mr. Brooks thinks that at the next meeting of the Judiciary Committee a favorable report in his case will be made. Senators Edmunds, Stanford and Williams have also agreed to help him, and on the whole, notwithstanding the delay in his case, from present appearance he will probably be confirmed before the close of the session as District Attorney for the Southern District of California.

NEW POSTMASTER. Joseph W. Houston has been commissioned postmaster at Courtland, Cal.

A railway mail service has been established from Soledad via San Miguel and Pismo to Templeton Station, on the Southern Pacific Railway, eight miles and six times a week, or as much oftener as trains may run.

MINISTER MANNING CONFIRMED. The following were confirmed today: Thomas C. Manning, of Louisiana, to be Minister to Mexico; postmasters, W. H. Foreman, at Benicia, Cal.; R. M. Jones, at Chico, Cal.

THE SWEET WINE BILL. SAN FRANCISCO, Feb. 22.—A special to the Examiner from Washington says: "The House and Senate conferees, after a long conference upon this subject, agreed today not to concur in the Senate amendment to the Wine Bill, which allowed for the strengthening of sweet wine by grape brandy, but have agreed to permit it for all wines to be exported."

COMMITTEE WORK. An adverse report on one of Beck's Pet Projects.

WASHINGTON, Feb. 22.—[By the Associated Press.] An adverse report was today ordered by the Senate Finance Committee on Senator Beck's bill to provide for the retirement of United States legal tender national bank notes of small denominations and for the issue of coin certificates in place of the outstanding silver and gold certificates. The bill also requires the Secretary of the Treasury to issue these certificates in denominations of \$1, \$5 and \$10 on all surplus coin and gold bullion held by the Treasury as the property of the United States in excess of \$100,000,000 of gold and silver coin and gold bullion, and to pay out the same in the discharge of the Government's obligations except such as are made payable expressly in gold and silver coin. After the action of the committee Senator Beck gave notice that he would call the bill up in the Senate at the first opportunity.

A BIG APPROPRIATION. The House Committee on Public Buildings has agreed to report the bill appropriating \$1,500,000 for erecting public buildings at Milwaukee, Wis. Next to the New York Custom House Bill, this measure carries the largest appropriation of any reported from the committee during this session.

SWIFT'S CHANCES.

The President Disposed to Make Him Interstate Commissioner.

WASHINGTON, Feb. 22.—[By the Associated Press.] It is pretty well understood that if California gets a member of the Interstate Commerce Commission it will be John F. Swift. Judge Field called on the President last week and Cleveland questioned him very closely about Swift and talked about him at length. As Judge Field called to discuss other matters he was somewhat surprised at the pertinacity which Cleveland showed in referring to Swift. Judge Field spoke of Swift's ability and integrity very highly, at the same time commending Ex-Lieut.-Gov. Daggett. The President has spoken of Swift to every one from California who has called upon him, whose judgment he thought worth having, and in every case Swift was spoken of in the highest terms. Swift's letter in the last campaign in regard to the American party pleased the President very much. He said that a man who could write that letter in the height of a campaign has a great deal of moral courage, and that is the kind of man he is looking for for Interstate Commerce Commissioners. Judge Field spoke of Swift as a man of means, of travel, of the highest integrity and of fine ability. It is not at all certain that a member of the commission will be taken from the Pacific coast, but if the President does go there for a commissioner he will probably take John F. Swift. George C. Gorham has also appeared as a candidate for commissioner. He is backed principally by New York stockbrokers.

MINT STATISTICS.

The Production of Gold and Silver Last Year.

WASHINGTON, Feb. 22.—[By the Associated Press.] The report of the Director of the Mint, containing statistics of the production of precious metals in use for the year 1886, was transmitted to Congress today. From the report it appears that the production of gold during 1886 exceeded that of any previous year since 1880, and that it almost equaled the production of that year. This amounted to \$35,000,000 in 1886, and \$32,000,000 in 1885. The production of silver, as near as can be ascertained, was

\$45,000,000. The amount of gold bullion imported into the United States was \$17,000,000, and the exports were \$27,000,000. The importations were made almost exclusively since August last. There was also imported gold coin to the value of \$23,000,000, and gold coin was exported to the value of \$11,000,000. The total export of gold bullion and coin was \$41,000,000, which corresponds almost exactly with the amount imported into the United States, so that there has been slight gain by the movement of gold to and from the United States during last year.

FOREIGN AFFAIRS.

The German Elections Result in a Government Victory.

BERLIN, Feb. 22.—[By Cable.] The results in 300 election districts are now known. The candidates elected comprise 20 Conservatives, 24 Imperialists, 25 Centerists, 67 National Liberals, 4 New German Liberals, 6 Socialists and 15 Alsatiens and 4 Poles. New elections will be necessary in 34 districts. The National Liberals will probably elect 90 members. All the Democrats have been defeated in Southern Germany. A reliable government majority is assured. The National Zeitung, commenting upon the election says: "The results as far as known give promise to a brilliant septennate victory. The results ascertained this afternoon include 26 seats won from the Reichstag majority of January 14th, while the National Liberals have wrestled from their opponents 23 districts, of which 13 were lost by the New German Liberals, 5 by the Centerists, 5 by the Socialists, and 3 by the Democrats. The New German Liberals have veritably suffered a crushing defeat."

The supplementary elections will be held on March 24. Herr Bennigsen, the National Liberal leader, is elected. Herr Windthorst has been re-elected. The Progressists are demoralized. They have met with unexpected defeat. The total Socialist vote shows an increase of 500,000.

Will Not Obey the Knights.

NEWARK (N. J.), Feb. 22.—The tobacco works and cigarette makers' assemblies of the Knights of Labor of this city have decided not to obey the order of the General Assembly of Knights. The order was adopted in October of last year, and provides that all persons engaged in the cigar trade who are Knights and members of the International Cigar-makers' Union shall withdraw at once from the union. This is the old fight between the union and the Knights in regard to the labels of the two organizations. The union claims that the admission of the Progressive Cigar-makers and Knights has injured their trade in this city, and it allows sale of foreign in opposition to home-made goods.

Montana Mines Resume Work.

ANACONDA (Mont.), Feb. 22.—The Anaconda Company started fires in thirteen furnaces today. This is about half the capacity. They will start the concentrators tomorrow or on Thursday, and the entire works in a fortnight. The Alice also started work today, and will resume in a few days. The two companies were obliged to close down a few days ago, owing to scarcity of salt and coal on account of the blockade. Fresh supplies were received yesterday, enabling them to resume.

Montana Grand Army Men.

BUTTE (Mont.), Feb. 22.—The Grand Army veterans of Montana met for the Department Encampment this morning. After the report of the retiring officers an election of officers for the ensuing year took place, resulting as follows: E. C. Waters, of Billings, Grand Commander; H. H. Howell, of Helena, Senior Grand Commander; H. C. Kessler, of Butte, Junior Grand Commander, delegate to National Encampment, P. R. Dolman, of Butte; alternate, G. W. Shaw, of Helena. The visitors will be banqueted this evening.

Racing at Santa Cruz.

SANTA CRUZ, Feb. 22.—The races at the Bay View Driving Park were well attended today and the track was in good condition. The first event was a running race, 600 yards dash, between Johnny Imus and Jack Frost and resulted in a dead heat in 37 seconds. The next event, and the principal one of the day was a ten-mile trot between Santa Cruz Belle and Topsy. It was won by Santa Cruz Belle. The purse was \$300. The day was observed as a holiday and the weather was fine.

Hopeful Cattlemen.

DENVER, Feb. 22.—Reports received at the office of the Colorado Cattle Growers' Association indicate that from the south of Montana to the Gulf of Mexico cattle have wintered better than for years. One of the most prominent Montana cattlemen today said that the losses as reported by some eastern papers are greatly exaggerated. All danger to range cattle is now over, and cattlemen are looking forward to a year of prosperity.

A Drunken Man Burned to Death.

JACKSON, Feb. 22.—News is just received here today of the destruction by fire of the general merchandise store of J. W. D. Palmer, at Lancha Plana. The clerk, a young man named Johnson, slept in the back part of the store, and went to bed that night considerably intoxicated, and it is supposed that he upset a lamp. His injuries were so severe that he died in a few hours. The building and contents were a total loss.

Train Wrecked Near Templeton.

TEMPLETON, Feb. 22.—When the train was within four miles of this place this afternoon the forward truck of the baggage car separated and the train was derailed. No one was hurt. Energetic efforts are making to clear the wreck for the morning train. The passengers were brought here on the engine.

Arrested for Wife Murder.

SAN LUIS OBISPO, Feb. 22.—Upon the arrival of the Cambria stage last evening Sheriff Mead observed a passenger alight who tallied with the description of William Springer, the man who so brutally murdered his wife at Colton, January 5th. The Sheriff, on the strength of his suspicions, arrested the stranger.

Manslaughter Charges Dismissed.

SAN FRANCISCO, Feb. 22.—The charge of manslaughter preferred by the coroner's jury against Leon Blum and Andrew Crawford, owners of the bark Memnon, on which three sailors were killed by the breaking of a bolt, have been dismissed by Police Judge Lawler.

The Dominion Elections.

TORONTO (Ont.), Feb. 22.—In the Dominion elections up to 10 p.m. 111 constituencies have been heard from, of which return Conservatives and 40 Liberals.

On the Track of "Pete."

CLOVERDALE, Feb. 22.—Sheriff Colgan and posse are here, and are on the track of Peter Olsen, the murderer of Mrs. Lyons.

"Times" Telephone Directory.

New subscribers yesterday: 210, Conclave saloon, 141 East First; 539, Russell, Cox & Brandt, real estate, First and Spring; 439, Mr. and Mrs. C. N. Smith, Parisian hair store, 109 North Spring; 377, S. S. Salisbury, physician, 25 West First; 312, Lake Hemet Water Company, 25 North Main.

IMMORTAL GEORGE.

How Washington's Birthday Was Observed.

James Russell Lowell Gives a Chicago Audience a Surprise

By Refusing to Celebrate the Day by Talking Politics.

Patriotic Observances of the Great Anniversary at the National Capital, New York, San Francisco and in Many Towns of This State.

By Telegram to The Times.

CHICAGO, Feb. 22.—[By the Associated Press.] James Russell Lowell was greeted at Central Music Hall this afternoon by a brilliant audience, assembled to hear him deliver his address on "American Politics." Every seat in the hall was taken long before the entertainment was expected. On the platform was a distinguished array of gentlemen, including ex-Cabinet officers, Federal and State judges, generals and lesser military officers, bishops and other ecclesiastical dignitaries, and many of the foremost representatives of the commercial interests of Chicago and the Northwest. On behalf of the Union League Club, Gen. George W. Smith introducing Lowell, explained that the address was the first of an annual series under the auspices of the club, the idea being to inaugurate, as far as possible, a review of the general recognition of the birthday of Washington, and create among the people a higher political culture. Mr. Lowell on coming forward was greeted with prolonged applause. He said:

"Ladies and Gentlemen: When I received the invitation to speak here tonight, and, indeed, until a short time ago, I had the impression that I was to speak as one of a course. It was an erroneous impression, I know, but it was a sincere one. I have suffered my choice of two topics, politics or literature, and at first, I chose politics, but I now appear to announce a change of programme. After having written an address on politics, when I came to read it over I felt that I stood in a very delicate position. I was to address a mixed audience, and I was not speaking in my own opinion, but as a representative of a club composed of both parties. Now, I believe I have been in the habit at times of speaking my mind pretty strongly, perhaps sometimes too strongly, but I found that this was an occasion in which I was placed in a delicate position, where I could not express myself with entire frankness, as one speaking in my own person. You all know, of course, quite as well as I do, that the text is a mere *brutum fulmen*, without direct and immediate illustration, and I have observed, as I dare say, you have, that direct and immediate illustrations seem to have some personal application in them. Direct applications and illustrations seem to have gone to the school of the Prophet Nathan, and they do not say in so many words, 'Thou art the man,' they always seem to imply it. It seemed to me that I had better throw up my political discourse, though with great reluctance, because I could not make it to my mind, and I shall fall back upon the other limb of choice afforded me—that is, some literary topic. I am convinced of the wisdom of the choice since my arrival in Chicago, for it would cause me the greatest regret if any word of mine should mar the cordiality of the welcome which will be one of the pleasant recollections of my life. I shall therefore ask you to listen to the corner lot on southwest corner W. Seventh and Vernon ave., 70x127 to alley; new two-story barn, and water closet to the lot.

How the Anniversary Was Observed

WASHINGTON, Feb. 22.—[By the Associated Press.] The President drove out to Oakview this morning, and will remain there today, examining legislative matters. Today was generally observed in this city as a holiday. All executive departments and many business houses were closed. Both houses of Congress, however, were in session. Several street parades took place during the day. The first was a company of veterans of the old volunteer fire departments of this city and Baltimore, who subsequently participated in a celebration in Alexandria. The National Rifles, Washington Light Infantry Corps, Central City Guards and High School Cadets paraded during the afternoon.

The Continentals made a pilgrimage to Mount Vernon, where appropriate exercises were held, including an address by Representative Herman, of Oregon, and others. The Oldest Inhabitants' Association also celebrated the day in an old-fashioned way.

THE DAY IN NEW YORK.

NEW YORK, Feb. 22.—The public buildings, banks, exchanges and business houses are closed, and Washington's birthday is being generally observed here.

IN SAN FRANCISCO.

SAN FRANCISCO, Feb. 22.—Today being Washington's birthday and a legal holiday, all public offices are closed. The Stock and Produce Exchanges held no sessions, and a large number of business houses also observed the holiday.

IN OTHER PLACES.

OROVILLE, Feb. 22.—Washington's birthday was observed in the usual manner. The observances were conducted under the auspices of Sherman Post of the Grand Army of the Republic.

LIVERMORE, Feb. 22.—Washington's birthday was celebrated by a liberal display of bunting on the principal buildings.

SANTA BARBARA, Feb. 22.—The people have generally observed today's double holiday. Arbor day was celebrated by a general indulgence in tree planting.

MERCED, Feb. 22.—Washington's birthday was observed here today by suspension of all public business.

THE WEATHER.

INDICATIONS.

SAN FRANCISCO, Feb. 22.—Indications for the 24 hours commencing at 4 a.m., February 23d: For California, light rains in northern portion; fair weather in southern portion.

Accidentally Killed.

BAKERSFIELD, Feb. 22.—Fred Mozle was accidentally shot and killed by F. Pittman, at Long Tom mine, yesterday.

BUSINESS TOPICS.

The New 100-acre Tract in 4-acre Lots, New Main street and Wilmington avenues—22 shares.

The division of this splendid tract takes place tomorrow at 10 a.m. Two shares can be obtained if applied for immediately. Terms, \$100 per acre in installments, without interest. This land will double in value within one year and quadruple in less than three years. The improvements to be made will be without further charge. Southern California Land Company, Baker block.

The Rosanna

For the benefit of the public. Col. R. S. Baker and Senator John P. Jones, through his attorney, Walter Van Dyke, Esq., have concluded to place on the market, through John C. Bell, the auctioneer, 200 fine, level lots in Santa Monica, to be sold to the highest bidder, without reserve. The first sale in five years—and this will be the only sale by the original owner probably for the next five years to come. Now is your time.

Marble, Sandstone and Black Granite.

The Tebechian Building Stone Company are now prepared to fill orders of any dimensions at short notice, to stone-cutters, contractors and builders, for their fine-grade gray marble, brown, yellow, green and white sandstone and black granite from their quarries at Tebechian. Samples at office, 12 Court street. Postoffice Box 1338. ROBERT A. LEWIS, Secretary.

You Must be Hard to Sult

If the attractions offered by the Mondonville tract don't satisfy you: The beautiful city at your doors. The lovely plains at your feet. The immense ocean before you. The picturesque mountains all around. And above all, the seclusion of that charming place within your reach. Rooms 1 and 4, Postoffice Building.

Into the Orange Groves.

If you are a tourist or stranger, a trip over the San Gabriel Valley Railroad now will give you more pleasure and a better view of the typical beauties of Southern California, its homes, orange groves and possibilities of growth than any other. Take daily tourist excursion, at 9:30, for Pasadena, Rose, Baldwin and Sierra Madre Villa. Round-trip, \$2. Rail and carriage.

Dry Lumber.

For some time there has been a scarcity of dry lumber in this city, but the Schallert-Gasch Lumber Company, by a special effort, have succeeded in securing a lot of thoroughly seasoned rustic and finishing lumber, which they offer to the trade at their yards, Alameda and First streets.

At the ladies and gents' parlors of the Caribbea Smoke Bar, rooms 3 and 4, over 28 North Spring street, Los Angeles, they give free tests in order to prove their assertions. Truly, it's a wonderful curative discovery for such diseases as catarrh, colds, asthma, etc. Send for testimonials of our best citizens.

"His Daughter-in-law Elected."

And all who go to San Bernardino can procure their tickets today at the California Southern Railroad office, Ben E. Ward, 4 Court street, and Culver & Leell, 34 N. Spring street. Train leaves at 8:30 tomorrow morning from the New Depot.

The Columbia Loan and Building Association of this city meets for permanent organization this evening, at 7:30, at the City Council Chamber. The first payments are to be made and the bylaws acted upon.

Long Beach.

A SEA-LION CAUGHT—REAL ESTATE.

LONG BEACH, Feb. 21.—(Correspondence of THE TIMES.) Many very curious and unusual things have been found along shore since the recent storm. A sea lion was captured on the beach in front of the hotel, too exhausted to make much of a fight for liberty, and borne in triumph to an extemporized pond, where he is still on exhibition, to the great delight of the small children. Numerous shark's eggs have been picked up, and one lady found a larger and more beautiful conch shell than had ever been seen by the oldest inhabitant. Bits of coral, samples of sponge, curious looking jelly-fishes, and many shells entirely new to this beach are coming in daily; and at any hour of the day men, women and children may be seen, armed with buckets and shovels, collecting the "spoils." The piles washed out of the pier were found covered with large barnacles, which, when cleaned and varnished, make the most tasty and unique of match or toothpick holders. A specimen of this kind, worth from \$3 to \$5 in the East, was sold by a dealer in the place for five cents. If one could get enough of these it would discount the real-estate business. An enterprising little maiden is making a collection of these for the market. She also strings some of the rarer kinds of small shells into charming necklaces and rosaries—very pretty mementoes, as a lady remarked the other day, "to carry to eastern friends." J. W. Bixby & Co., of Alamitos Beach, have some of their new manufacture of water pipe on exhibition, but seem to forget in their enthusiasm over it that there is a slight difference between a few lengths of pipe manufactured and a few miles of pipe laid and tested. It seems to them that one hundred dollars an acre would be dear for what they are now asking three thousand; in the event of their failing to get water on the spot, and they do not pretend to guarantee that they will put it there. Come, gentlemen, show your faith in your own enterprise, and put your names to something more solid than blank paper, before asking people to put up so much money. The recent change from 10 per cent. to one-third cash payment without this guarantee is a little "too previous."

PASADENA.

The New Water Company and Other Improvements.

There is some energetic work under way on the Fair Oaks sidewalks between the Mills' Block and Colorado street.

Those parties interested in organizing a subordinate lodge of the order, Sons of St. George, will meet in the school room of Rev. J. H. Simey in the school block, next Wednesday evening. The membership of the Presbyterian Church was increased 38 yesterday, making a total membership of 159. A majority of those who joined yesterday did so by letter; the remainder on profession of faith. This large increase indicates how rapidly the church is growing, and is a sure index of its coming strength.

The Colorado-street Railway's time has been changed to accommodate the increasing travel. Hereafter a car will leave Fair Oaks every 20 minutes between 8 a.m. and 5 p.m. The hill-avenue extension will be pushed and cars will be running in 30 days if everything works well.

Dr. Conger and W. A. Kimball are making some important improvements on Howard street and vicinity (near the Doctor's home place). They are building five cottages and furnishing them for rent, and are preparing to put up five more on the opposite side of the street. They are also laying plank walks and furnishing up the property along Howard street generally. Mr. Kimball arrived from New York a short time ago, and is taking hold of the above kind of work with the Doctor with vigor and full faith in its profitability. Improvements of this kind talk for themselves and constitute the foundation stones of Pasadena's future importance as a city.

The extra bench of retorts ordered by the gas company have not yet arrived, and considerable embarrassment is being caused by lack of facilities for making the gas in greater quantities. When the works were built, provision was made for doubling the capacity, by adding to these retorts, but it was not expected that the increase would be required so soon. The growth of Pasadena gets ahead of many companies' plans. The gas now made here will be both better and cheaper when everything is in good shape, though no serious complaint can be made on this score. The fact that the company has arranged to buy its coal hereafter at first hands, in shipload lots, from Australia, is noteworthy, as the price of gas will be apt to drop on that account.

From an officer of the Arroyo Seco Water Company, just formed, we glean the following information as to its plans: The company will open an office in a few days over the San Gabriel Valley Bank, where stockholders in the Pasadena Lake Vineyard Land and Water Company will be invited to subscribe to the stock. One \$100-share, indorsed 50 per cent. paid up, will be offered to each holder of one \$50-share, with \$30.37 paid up in the present company. All fractions will be eliminated by purchase and sale of present fractional interests. Ten shares in the new company, indorsed 50 per cent. paid up, will be offered for each outstanding Lake Vineyard water right. Cash subscribers will be received at the rate of \$50 per share. The subscription books will not, probably, be opened more than thirty days after the opening of the office.

The directors of the Pasadena Lake Vineyard Land and Water Company will then proceed to divest that corporation of its present trust, by reconveying to all stockholders who decline to take stock in the Arroyo Seco Company their proportionate Lake Vineyard rights, after which they will convey the remaining property of the Pasadena Lake Vineyard Company to the Arroyo Seco Water Company. Should any Lake Vineyard right holder attempt to interfere with the proposed developments, by injunction or otherwise, the Arroyo Seco Company being invested with the right of eminent domain, will proceed to condemn to public use the interest of such person in the waters; but no person will in any event be de-

prived of the use of the waters, in which he is protected by special clauses in the code, whatever be the form of corporation which supplies it.

CLAREMONT.

The Santa Fe's New Town Just Above Pomona.

CLAREMONT is the name of a new town on the San Bernardino and Los Angeles Railroad, and is located just two and two-fifths miles, in an air line, north-east of Pomona. The townsite is beautifully located on a mesa, some 1200 feet above the level of the sea, and at present is covered with a vast grove of sycamores. The site is almost level, with just enough incline to the south to insure first-class drainage. It embraces 386 acres, purchased by the Pacific Land Improvement Company from the Pomona Land and Water Company, including 65 acres purchased direct from H. A. Palmer. The S. B. & L. A. Railroad is now graded through the townsite to Alexander avenue, or will be by Saturday night. The line of the road, if continued due west, as at present surveyed, will be on the south line of the Loop home place. The townsite includes 17 acres of block 7 of the North Pomona tract, just east of Alexander avenue, and also part of block 4, west of the avenue, and blocks 1, 2 and 3, east of the avenue, and runs as far north as the upper wells. The whole is just inside the line of Los Angeles county.

A large gang of brush-cutters are at work cleaning the land of all the undergrowth and trees which will be in the way of streets, avenues and parks. A corps of surveyors under Mr. Kuhlmann have been at work two weeks, busy platting the townsite. The streets will be at right angles, while the avenues will be broad and follow the grade of the land, thus making a beautiful curves up and down and to the right and left.

As soon as the surveyors shall have finished their work the property will be placed on the market. George W. Fullerton, the president of the Pacific Land Improvement Company, informs us that he has promises from a large number of persons anxious to buy already. There is no doubt but that every lot will be readily sold. All avenues are to center in a grand plaza. The prospects are that before the railroad shall get to Claremont from San Bernardino that a large-sized town will be in existence there. A postoffice and newspaper are already promised. Claremont springs into existence with a fine "back country" already thickly settled with intelligent set of thrifty fruit growers, who are pleased to have a shipping point on a transcontinental railroad at their very doors.

Before railroad connection shall be had with Los Angeles, Claremont will be a good-sized town, with a post, express, telephone, telegraph and newspaper offices, stores and residences. Its situation is beautiful. The clear mountain view suggests its name. To the north is Old Baldy's snow-capped peak. In the midst of the town are numerous artesian wells of clear mountain water. The elevation above sea level gives its clear mountain air. Claremont is located within the frostless belt. Think of a country where the mercury never gets down low enough to nip the leaves of the delicate heliotrope. Well, here it is for a verity.

Claremont, with its clear mountain air and water, is a sanitarium where the world-weary can find rest and new life. Near by are the delightful trout streams of the San Antonio cañon, and further on are the deep pine woods, which welcome the hunter to his big game of deer and bear. Around Claremont are produced the choicest fruits that Persephone can give Pomona. The luscious orange, the delicious guava, the juicy peach, the healthful fig, the fattening olive, the grape, and the best of fruits here flourish as nowhere else. The high hills to the south dike off the ocean fogs, while refreshing zephyrs bring increased vigor.

Covina.

[Covina Exponent.]

The foothill boom will continue. Vegetation is having a little boom of its own.

Mushroom eaters are jubilant. That luxury will soon be plentiful in many parts of Southern California.

Work on the cement laterals has been suspended for a time. As soon as the weather settles and the company gets its business straightened out a little, work will be resumed, with all the old-time vigor.

The rains of the past two weeks not only thoroughly soaked the ground, but deposited many feet of snow upon the mountains, which will insure us water for irrigating purposes during the entire summer. The snow in the mountains is worth as much to us as the rain in the valleys, it being our true summer source of supply.

Unusually Attentive.

[San Bernardino Gazette.]

The California Southern Railroad Company is destined to become a very popular corporation, as they have an idea that the traveling public have some rights which even railroad companies are bound to respect. The company were unusually attentive to the wants of their patrons who were blocked at Cajon Pass, and those who were so unfortunate as to be on the train will never forget the care and attention that was manifested toward them by the employees of the California Southern Railroad Company.

Never, Except on Paper.

[Pasadena Star.]

Government Surveyors have changed the name of Wilson's Peak to Kinney-loa, in honor of Mr. Abbott Kinney. This ought not to have been done. Not that Mr. Kinney is unworthy such honor, but because Mr. Wilson was more deserving. He it was who made the trail to the summit, more than 7000 feet upward, at his own expense, is dead now, and the change ought not to be made. It never will be, except on paper. It will remain plain Wilson's Peak.

TWO FRIENDS MEET.

"Hello! old fellow. What have you been doing to yourself? You look like a subject for the undertaker," exclaimed the man on the right.

"I have been taking mercury and potash mixtures until they have nearly ruined me," squeaked the old man on crutches.

"And I," said the other, "have been taking the genuine Swift's Specific, which has built me up from the first dose."

SWIFT'S SPECIFIC.

Nature's own remedy, made from roots gathered from the forests of Georgia. The method by which it is made was obtained by a half-breed from the Creek Indians, who inhabited a certain portion of Georgia, which was communicated to one of the early settlers, and thus the formula has been handed down to the present day. The demand has been increasing until a \$100,000 laboratory is now necessary to supply the trade. A foreign demand has been created, and enlarged facilities will be necessary to meet it. This great

IVANHOE

700 ACRES

DIVIDED INTO ONLY 1400 LOTS

Price of Lots, \$150 Each. First Payment, \$20.

Succeeding Payments \$10 Monthly Without Interest.

The entire tract is beautifully situated, with a charming view, pure air and water and perfect drainage. The Ostrich Farm Dummy Railroad runs through the tract, with a five-cent fare guaranteed to and from the center of the city. This road will be completed to the tract July 1, 1887. Pure and abundant water piped through all the streets.

Size of lots, 50x150 feet up to 5 acres. The average size of lots, half an acre. The uniform price of these lots is placed at \$150; first payment \$20 cash, with succeeding payments of \$10 per month, without interest. This is a splendid investment for a very small amount of money.

When \$100 has been paid on each lot, the entire number of lots will be distributed among the purchasers, on the same plan as that on which the Childs tract was distributed.

THE WHEEL.

SECOND ANNUAL RACES OF THE LOS ANGELES BICYCLE CLUB.

A Thousand Spectators Watch the Interesting Contest at Agricultural Park—The Races and the Winners.

The second annual races of the Los Angeles Bicycle Club took place at Agricultural Park yesterday afternoon. The recent rain and the mud that followed made the track rough, and not in as good condition as had been expected, but the wheelmen were out in good numbers, and, generally, the several races were contested by enough riders to make them fully interesting. Nearly a thousand people were present, and many ladies in carriages added to the appearance of the crowd. There was some delay in the judges getting to the grounds on the advertised time, and the first race was not started till 2:30. The wind blew rather strongly, and not only interfered with the speed of the bicyclists, but made the air chilly to those looking on. Everything passed off smoothly, and no accidents, no disagreements nor ill feeling of any sort appeared.

The half-mile dash had five contestants and was won by J. Phil Percival, first prize, a gold medal; S. Wing, second, a silver medal; time, 1:37 1/2.

The one-mile club race was warmly contested by three riders. F. E. Olds fell back at the start while the others shot ahead and worked hard. Olds gradually gained and came out well ahead of the second, making the mile in 3:40 1/2, prize, gold medal; O. C. Smith second, prize, silver medal; time, 3:45 1/2.

Foot race, 120 yards, won by M. E. Clark, time 14 1/2 seconds, prize, gold medal; A. E. Little second, time, 15 1/2 seconds.

The two-mile State championship was perhaps the most fought of any race. The entries were R. C. Woodworth, J. Phil Percival, C. A. Biederman and S. F. Booth, Jr., the latter two gentlemen from San Francisco. Upon getting fairly out on the first quarter Woodworth led while Percival fell entirely to the rear. As might be expected, the sympathy of the crowd was with the Los Angeles boys, and the general desire was that Los Angeles should contain the championship of the State till taken from him at a future contest. As he obedient to this wish Woodworth held his own and won the first prize, gold medal, his time being 7:35 1/2. Percival crept toward the front in fine style and won the silver medal; time, 7:10 1/2. S. F. Booth, Jr., has won the State championship since the last contest.

The half-mile club championship was won by P. L. Abel in two heats. Best time, 1:49 1/2; prize, club cup.

One mile bicycle race for boys under 18 years, won by F. Patterson, time, 3:33. Second prize, F. N. Lewis; time, 3:37. Gold and silver medals.

Foot race, 220 yards. M. E. Clark won in 26 1/2 seconds; Dodsworth, 27 1/2. One prize given, gold medal.

The five-mile bicycle race seemed to interest general attention most deeply. The prizes were gold medal, silver medal, hub lamp. The entries were Woodworth, Abel, Percival and Patterson, who took the order of their names at the start, and kept it till the last, except that the distance between them slowly increased until at the end of the race R. C. Woodworth was a full quarter in the lead of Abel. Percival dropped out at the end of the fourth mile, and Patterson held on and won the hub lamp, though he scarcely kept on Woodworth's way; time, 11:50 1/2; 18:35 1/2, 22.

Slow race, 100 yards, had three entries; and but one successfully reached the rope, A. E. Little; time, 2:19; prize, bicycle shoes. Three-mile race, by the club members, was hotly contested by O. C. Smith, W. W. Downing, E. P. Woodworth. These immediately assumed positions their names indicate and were pretty well bunched all through. Smith, first time, 11:32; Downing, second, time, 11:30.

Special Star Bicycle race, one mile, one prize badge was won by A. E. Little; time, 3:45 1/2. W. S. Wing came in second time, 3:46.

Past records on bicycling in this region are as follows: One-half mile, 1:31; one mile, 3:31 1/2; three miles, 12:06 1/2; five miles, 17 minutes.

The members will hold a banquet and general good time at an early date, when the medals will be formally awarded.

NOW YELL.

Laughable Sell Perpetrated by the Legislative Committees.

There is a pretty fat joke in connection with the visits of the Legislative committees to this city. Senator A. Yell, of Mendocino and Lake counties is reputed the handsomest man in the Senate. He is a member of the Senate Committee on Military, and was announced as one of the party which came down here Sunday. Senator Yell helped inspect the Eagle Corps, Senator Yell attended the subsequent banquet, and Senator Yell made some very appropriate remarks thereat, when duly called upon. He was introduced to many people here, and made a very favorable impression.

And now, alas! it turns out that the festive solons played a gigantic joke on this unsuspecting community. Senator Yell didn't come down at all. A bright young gentleman named J. De Witt McPike, a minute clerk of the Senate, was along with the party, however; and the wags of the party put up a job and induced him to act the part of Senator Yell during their visit here—which he did most successfully. No one here discovered the substitution until ex-Senator Del Valle "caught on" yesterday.

BAD BANKS.

He Breaks a Till and Gets \$400 in Gold Coin.

Just at peep o' day yesterday, after an all-night bout of card-playing, the colored proprietor of the Champion saloon, Los Angeles street, walked up town with another mope named John Banks. They were going to breakfast. Banks made an excuse to leave the proprietor, who is known as "Champ," and was seen by Officer Methvin to go back toward Los Angeles street. When "Champ" got through breakfast and returned to his saloon, he saw Banks climbing over the back fence. "What have you been back for?" demanded "Champ." Banks answered, "Lookin' for my dog," and went off. Upon entering the saloon, "Champ" found that Banks had forced a rear door, broken open the till, and got away with a roll of gold containing between \$300 and \$400, which Banks had seen "Champ" put in the drawer. Now the officers are looking for Banks.

ARLINGTON HEIGHTS.

ON WASHINGTON ST., 100 FEET WIDE. The future grand boulevard from Los Angeles to the Pacific Ocean.

The plateau of ARLINGTON HEIGHTS offers the most magnificent view to be beheld in Southern California, embracing the whole of the Los Angeles Valley and extending from San Pedro and Santa Monica on the Pacific Ocean, across the plains to the foothills, and up to the snow-capped heights of the Sierra Madre Mountains. This tableland, or mesa, is perfectly level and unbroken, but 60 feet higher than the elevation of Spring or Main streets. To reach it there are no hills to climb, and as the streets leading from the center of Los Angeles city up to it follow the same even grade it is as easy of access as Washington street. The soil of ARLINGTON HEIGHTS is a rich loam, mellow and friable all seasons and easy to cultivate. The vineyards and orchards surrounding it are the most productive that every acre of ARLINGTON HEIGHTS will produce grapes and fruit without irrigation. A stratum of pure well water is struck anywhere on the tract at a depth of from 30 to 60 feet. The plateau of ARLINGTON HEIGHTS is unequalled for health. A breeze from the Pacific Ocean fans it daily; sea fogs never reach its elevation, and fruits being almost unknown on the "mesa," bear fruit there every day of the year. The Santa Monica branch of the P. & S. R. runs alongside this elegant tract; the present terminus of the electric street railroad is distant one-half mile from the center of ARLINGTON HEIGHTS. It is expected that it will be extended to and through ARLINGTON HEIGHTS. A free carriage is sent from the electric road to ARLINGTON HEIGHTS, and the two horse street-car line is now being extended through Washington street to an easy walking distance from this tract. The elevated plateau of ARLINGTON HEIGHTS terminates in a ridge of about 40 feet just south of Adams street, and a similar ridge north of Pico street. On these ridges are located the most magnificent buildings situated in Los Angeles. No houses can ever be built high enough in front of them to obstruct that glorious view of mountain, valley and ocean; to the blue waves of fair Los Angeles Valley, to the blue waves of the Pacific Ocean beyond the coast of Santa Monica. Whoever wishes for a beautiful home sheltered from the wind and dust of the city, but within a twenty minutes' drive of the Plaza, should select in ARLINGTON HEIGHTS a lot of 5 1/2 acres whereon to build his house.

During the last few years it has occurred frequently that men have bought five or ten acres in Los Angeles, sold off one-half in lots for the price of the whole, and retained valuable grounds for a home, thus free of cost. Such chances are offered today in ARLINGTON HEIGHTS. The present owners, Dan McFarland, William H. Bonnell, Theodore Wiesendanger, Messrs. F. and B. McCarthy, Turner and McRatney, purchased this large body of land at a low price; they offer it now in smaller tracts, or lots, at prices to suit all, and purchasers who make their selections now get all the benefit of a first choice for bargains in a vast tract of land. Every city has its one fashionable suburb, not too distant from the center of activity nor too near its noisier streets. ARLINGTON HEIGHTS, through a happy combination of advantages, promises to become what St. Cloud is to Paris, or Richmond to the city of London.

ARLINGTON HEIGHTS hitherto was one vast body of land of nearly 70 acres. Our map shows a magnificent subdivision of it into 5 1/2-acre blocks, 60x260 feet, including streets, each containing 24 lots 50x120 or 30 feet, and each surrounded on all sides by streets 60, 80 or 100 feet wide. Investors who are able to appreciate the implications of a future to this tract, with its miles of wide streets, intersecting each other at right angles, the elegant lawns and stately mansions of the rich will be found here within a short time, and purchasers who take advantage of low prices and easy terms will reap a golden harvest of their investment in ARLINGTON HEIGHTS.

SPECIAL NOTICE

TO THE AFFLICTED.

DR. M. HILTON WILLIAMS

Continues to treat all the various diseases of the Head, Throat and Chest, including the Eye, Ear and Heart, by his new and complete system of Medicated Inhalations, combined with proper constitutional remedies for the Stomach, Liver and Blood, etc. Probably there has never been any system of practice so popular as one that has so completely revolutionized the system of medical practice as the Aerial or Inhalation System, for head, throat or lung affections. The cures effected are simply marvelous, and can be substantiated by the very best citizens of Los Angeles. During the past three years we have endeavored to be conscientious with our patients, and if, upon examination, we find, in our judgment, our case to be of an incurable nature, we unhesitatingly inform the patient or friends. We believe this system to be justifiable and are ready to condemn any physician who would do otherwise. Now we give a sample of the cures effected by us.

LOS ANGELES (Cal.), Sept. 24, 1888. Dr. M. Hilton Williams—Dear Sir: I have been contemplating for some time past making a statement of my case and the benefit I have derived from your treatment, remembering how glad I would have been could I have seen something of free kind from a person in the city to whom I could have referred, when I first came to Los Angeles from my home in New York State. I had been suffering for several years with what various physicians in the East pronounced "chronic ulcerated larynx." I spent considerable time at the Clifton Sanitarium, and employed the best medical skill I could find, without permanent benefit, and a last resort, our family physician recommended Los Angeles. For my improvement and then I began to go backward and all my former symptoms returned.

Through a medical friend I was induced to try your treatment, which I did August 29, 1888. I became very much discouraged at times, but persevered, as I felt almost desperate and knew of nothing else to turn to. My throat trouble, being aggravated by a serious stomach difficulty, made it very obstinate to deal with, but at last, after persevering for a time with the use of your remedies, I consider I am permanently cured. It will be of any value to you, you are at perfect liberty to use also to refer any one to my mode of cure, and myself. Very truly yours, Miss J. D. WILEY, 821 Olive street, Los Angeles, Cal.

RIVERSIDE, Oct. 17, 1888. To the many testimonials I have read, it gives me pleasure to add my own to the list so highly in his favor. For nearly two years I had been suffering from throat and lung trouble, brought on by catarrh. Had tried many remedies in the meantime, but found only temporary relief. After two months' treatment, prescribed by Dr. Williams, my cough left me altogether and I now have no pain in my throat or lungs as formerly. I cannot speak too highly of the benefits I have received and shall ever be grateful to one who is worthy of the highest recommendation.

Miss M. H. HARRIS, Riverside, Cal. WHEELHILL (Cal.), Sept. 22, 1888. Dr. Williams—Dear Sir: I write to tell you how much I thank you for what you have done for my catarrh and deafness, which have been a burden to me for so long time, are completely cured, and my general health so much improved that I feel like a different person. Thanking you again for your many deeds of kindness, I am respectfully yours, Miss ANNE RICHARDS, LOS ANGELES (Cal.), Dec. 4, 1888.

Dr. M. Hilton Williams—Dear Sir: I desire to let every man, woman and child know that you were instrumental in leaving my life from that of a destroyer, consumption. I came to Los Angeles from Quincy, Ill., on the 10th of June, 1888. The next day I began treatment. I was at that time afflicted with a large cavity in my right lung, from which I had suffered ever seven years, but thank God, you cured me in 16 weeks. I am now well and strong as ever. Tell it to all. Yours truly, JAMES JESSOP, Quincy, Ill. P. S.—I no longer have any cough.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever.

I have seen so many of these cases cured that I do not count any case hopeless unless both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavity, and which nothing else can do with the same success. The very best references from those already cured.

CONSULTATION FREE.

Those who desire to consult with me in regard to their cases had better call at the office for consultation and examination, but, if impossible to do so, can write for a copy of my Medical Treatise, containing a list of questions. Address

—OF LOS ANGELES.—

It crosses the entire NOB HILL TRACT, and only four lots remain unsold on this avenue. Within the past six weeks \$30,000 worth of lots have been sold in the NOB HILL TRACT, and those who want to share in the certain advance now coming should buy at once.

The streets have been graded. Water is piped across the NOB HILL TRACT, and work will be commenced early next month on Kirkwood College. The NOB HILL TRACT lots are only six minutes' walk from the Belmont Hotel, and the new motor road will pass within one block.
